DOCUMENT RESUME

ED 377 891 JC 940 644

TITLE	Blinn College Fact Book, 1993-94.
INSTITUTION	Blinn Coll., Brenham, TX. Office of Institutional Research and Effectiveness.
PUB DATE	Oct 94
NOTE	148p.
PUB TYPE	Statistical Data (110) -- Reports - Descriptive (141)
EDRS PRICE	MF01/PC06 Plus Postage.
DESCRIPTORS	Academic Persistence; Academic Rank (Professional); Administrative Organization; Budgeting; Class Size; *Community Colleges; Enrollment Trends; Expenditures; Faculty Workload; Grades (Scholastic); *Institutional Characteristics; Library Materials; Longitudinal Studies; Personnel Data; School Holding Power; *Student Characteristics; Student Financial Aid; Tables (Data); Transfer Students; Two Year Colleges
IDENTIFIERS	*Blinn College TX

ABSTRACT

This second edition of the Blinn College (BC) Fact Book brings together descriptive information about all aspects of the college, specifically highlighting the growth and development of the college during 1993-94. Section I provides background information on two-year colleges in Texas, including a history of Blinn College and a list and map of the Texas public community/junior college districts. General information about BC is provided in section II, including charts showing the organization of the college by function and personnel and library holdings, circulation, and usage statistics. Section III provides enrollment data, including: (1) fall and spring enrollment growth, 1982-1994; (2) 1993 fall enrollments of BC and comparable college districts; (3) 1993 fall headcount enrollments; (4) BC fall enrollment, 1983-1993; (5) 1991-94 enrollment summaries by campus for fall, spring, and summer sessions; (6) student full-time equivalencies (FTE's), 1987-94; (7) fall 1993 credit hours and FTE's for Texas public community/junior colleges; (8) contact hours fall 1989-93 semesters; (9) distribution of student headcount, credit hours, and contact hours; (10) credit and contact hours by division, 1990-94; (11) duplicated enrollment by division, 1991-94; (12) developmental education contact hours and class enrollment; (13) average class size by discipline and campus; and (14) student course load, 1993. Section IV contains student data, including longitudinal student profiles, 1991-94; and information on course load; full-/part-time status; age; gender; ethnicity; legal residency; residence hall students; final grade distribution; associate degrees awarded; degrees awarded by level; follow-up of BC students, graduates, and leavers; student transfer and retention activity. Faculty data are presented in part V, including information on average teaching loads, staffing by campus, utilization of part-time instructors, general academic and vocational-technical faculty, and credit hours related to salaries and travel expenses. Finally, section VI presents fiscal affairs data, including information on income and expenditures of BC; funding of all Texas public community colleges; tuition; credit hours related to total expenditures; BC tax rates and assessed valuations; Texas Association of Community Colleges tax rates; a history of the Pell Grant Program; and students receiving financial aid. Preface

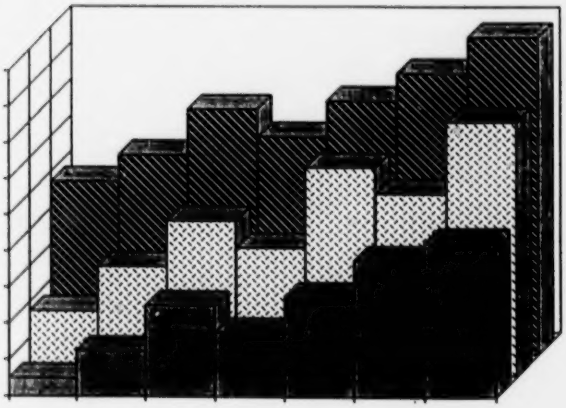
This is the second edition of the *Blinn College Fact Book*. It is an annual publication prepared by the Blinn College Office of Institutional Research and Effectiveness, bringing together descriptive information about all aspects of the College. This summarization provides a ready source of information in answer to frequently asked questions about the College, often set within a longitudinal context.

It is specifically intended to provide the Board of Trustees, College administrators, faculty and the community with a common source of information about Blinn College, for the purposes of drawing comparisons, forecasting changes, shaping decisions and conducting internal planning.

The data has been divided into six sections: Introduction, General Information, Enrollment Data, Student Data, Faculty Data, and Fiscal Affairs Data. Future editions of this fact book will provide both updated and additional data, consistent with changing institutional information needs. This edition specifically highlights the growth and development of the College during the 1993-94 school year.

SECTION I

INTRODUCTION



BACKGROUND OF TWO-YEAR COLLEGES IN TEXAS

Texas has 50 locally-governed public community or junior college districts. Sixteen schools were founded before 1930, with four schools dating back to the previous century (Weatherford College, 1869; Blinn College, 1883; and 1898 for both Clarendon College and St. Philips College).

Some early colleges originally were associated with churches and later converted to public institutions. Others were created as extensions of school districts, but were allowed to establish their separate identity following a 1929 legislative act. In the years immediately after World War II, community college formation surged with 11 new schools added. Following a lull in the 1950s, a record 12 colleges were started during the 1960s. Seven colleges have been founded since 1970. South Texas Community College enrolled its first students in Fall 1993.

The most recently established schools are likely to be called community colleges. Their creation acknowledged that public and private universities could no longer supply sufficient academic opportunities in fast growing Texas cities. Local colleges also expanded opportunities for technical education and training.

To a significant degree, local control enables community college districts to determine what courses to offer, what salaries to pay, what tuition to charge, and what tax rate to set. Although state law and the Texas Higher Education Coordinating Board rules do impose some limits on these choices, local autonomy account for the variation in course offerings and resource allocation among the colleges.

To insure that any future community college districts have sufficient local tax revenues and prospective students, a 1985 state statue specifies that proposed new districts must have 15,000 secondary students and a minimum assessed property valuation of $2.5 billion. Currently, 28 of the districts do not meet one or both of these criteria.

Whether they are called junior college, community college or just college, all over Texas these public, lower-division educational institutions offer students of various ages and ethnic groups the opportunity for educational advancement.

Each year more and more students enroll in Texas' public community and junior colleges. Texas has the second largest community college enrollment in the U.S. (California is first.) Community colleges' headcount is anticipated to exceed that of state public universities by the year 2000. The substantial growth in community college attendance is testimony to the importance of community colleges' educational role.

In 1960, community colleges accounted for less than one-third of public higher education enrollment, but community college enrollment in fall, 1993 made up nearly one-half of all students in Texas higher education. The headcount growth is especially noteworthy considering that community colleges cater almost exclusively to freshman and sophomore students. Traditionally, three-quarters of community college students are classified as freshmen, and around one-fifth are attending college for the first time. Freshmen students account for 72.4% of Blinn College students and 26% of Blinn College students are attending college for the first time.

Texas community colleges play a major role in educating minorities. African American, Hispanics, Asians and American Indians more often start their higher education at community colleges than at universities. For 1992-93, Texas community colleges enrolled 70% of all minority students entering public higher education. Minority students currently account for almost a third of the state's public community college enrollment. From fall 1988 to fall 1993, white headcount enrollment increased by 8.7%, while Hispanic enrollment was up 21.2%. African American student registrations grew by 33.0% and "Other" students showed the biggest increase of 41.4%.

Community colleges historically enroll large numbers of women, returning adults (including displaced workers caught in the downsizing cycle), disabled students, and senior citizens -- all projected to become a major segment of new workers in the next century. At community colleges, 57.1% of all students are women. Females constitute 49.9% of Blinn College students.

Some community college students attend school full-time, but community colleges are also popular with persons with more time constraints. Community college students also are more likely to attend school part-time because of work or family obligations. About half of all community college students enrolled in semester length courses take eight or fewer semester credit hours, while just over 35% of students register for 12 or more hours. In contrast, 78.9% of undergraduate public university students take 12 or more semester credit hours. At Blinn College, 57.2% of the students take 12 or more semester credit hours.

The average age of community college students is 27. More than 25% of the people attend community colleges during their prime wage earning years (ages 31-50). The average age of a Blinn college student is 22.

Many students come to community colleges to obtain academic credits for transfer to a senior institution (22% of Texas public university enrollees are community college transfers), while others seek technical training related to a particular job skill. Overall, 62.5% of fall 1993 contact hours were academic. Community college students' emphasis on academic courses ranges from a low of 41.0% of contact hours at Howard College to a high of 90.6% at Blinn College.

Despite the fact that Texas community colleges have assumed greater responsibility for economic development and work force training, they receive only 19.6% of higher education dollars. The State of Texas pays only 48% of operating expenses for its public community colleges, a decline from 65% six years ago. All physical plant construction, operation and maintenance expenses for public community colleges are borne locally.

According to the U.S. Census Bureau, students leaving community colleges with an Associate Degree can expect to earn an average starting salary of more than $17,000 a year. That is $4,000 more than high school graduates and almost double that of high school dropouts.

HISTORY OF BLINN COLLEGE

Blinn College was founded in Brenham in 1883 as Mission Institute, a private institution operated by the Southern German Conference of the Methodist church. In 1889 the name was changed to Blinn Memorial College in honor of the Reverend Christian Blinn of New York who had donated a considerable sum of money to make the school possible. The institution was originally founded for the purpose of training young men for the ministry, but in the course of time, academic courses were added to meet the demands of the public. After operating for five years as an institution for men only, Blinn College was made co-educational in 1888. Until 1927, the school was of academy rank. In 1927 the Board of Trustees, under the leadership of President Philip Deschner, organized a junior college. In 1930 the school was merged with Southwestern University in Georgetown. In 1934, a new charter was procured by the citizens of Brenham, and a private non-sectarian junior college, under the name of Blinn College, was organized with nine regents as the board of control. In 1935, the charter was amended so that not more than seven nor fewer than four regents could be elected, four of whom were to be members of the board by the virtue of their being administrative officers. In February, 1937, all connection with Southwestern University were severed. An election held in Washington County on June 8, 1937, for the purpose of creating a junior college district and for levying a small tax, was successful. Blinn College thus became the first county junior college district in Texas.

A request to assist in meeting the educational needs of Brazos County was answered by Blinn College in 1970 when it opened its first campus there in Bryan. A continued growth in enrollment led to development of the College Station campus in 1982 and the Blinn College Occupational Education Center in Bryan in 1991.

With a 1993 fall enrollment of more than 8,700 students, Blinn College is the 11th largest of the state's 50 community college districts.

Base Year Funding
Texas Community Colleges

State appropriations for community colleges are based on the number of contact hours generated by enrollments for students in attendance during the base year. A contact hour is an instructional hour in which a student has contact with an instructor. This includes both lecture and laboratory hours. In cooperative programs, the hours a student spends in a training station or internship (usually no more than 20 hours per week) that are supervised by a college coordinator or instructor are counted as student contact hours. Auto-tutorial sessions must be coordinated or supervised by an approved instructor to count as contact hours.

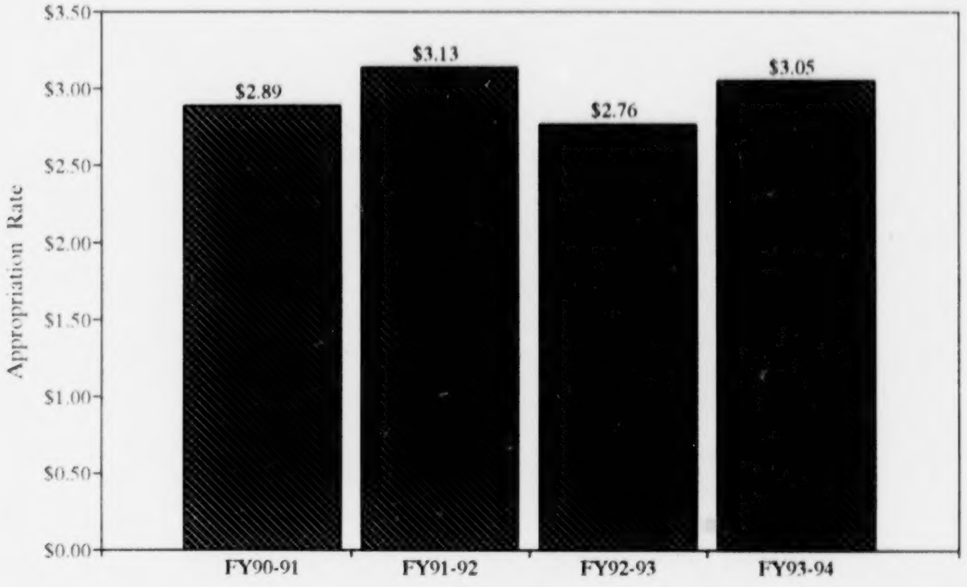
Reimbursement from the state is based on a contact hour formula funding system. Formula rates are determined by calculating the cost of instruction for one student contact hour in each of several disciplines in each community college offering such instruction. The cost figures are arranged in order from highest to lowest, and the median cost figure is used as the basis for the formula rate for all the community colleges in the state. The number of contact hours generated during the base period multiplied by the formula rate for that course determines the appropriations request for the following two fiscal years. The base year, which determines the appropriations for fiscal year 1996 and fiscal year 1997, includes summer session 1994, fall semeste 1994, and spring semester 1995.

Method for calculating state reimbursement for a course:

Contact Hours Per Week X Weeks in Semester X Official Number of Students in Course = Total Contact Hours for Course

Total Contact Hours for Course X Rate of Reimbursement From State = State Reimbursement for Course

Blinn College State Appropriations per Contact Hour



(Not Adjusted for inflation.)
